

Summary of Benefits and Plan Options

New Mexico Federal High Risk Pool

Summary of Benefits and Plan Options

This summary provides you with the deductible, copayment, coinsurance, out-of-pocket amounts, and very brief descriptions of your New Mexico Federal High Risk Pool benefits.

NM Federal High Risk Pool Benefits	The deductible you choose defines the percentage of covered charges* that the FHRP will pay after deductible is met		
Deductible Options (Per Member): Unless otherwise indicated, the calendar year deductible must be met before benefit payments are made. For families of three or more, the annual deductible for all family members combined is twice the Individual amount chosen.	\$500	\$1000	\$2000
Medical Out-of-Pocket Limit (Per Member): Includes coinsurance and deductible amounts only. After the out-of-pocket limit is met, the Pool pays 100% of your covered charges for the rest of the calendar year. For families of three or more, the annual out-of-pocket limit is twice the individual amount chosen.	\$2500	\$3500	\$3500
Pharmacy Out-of-Pocket Limit (Per Member): Includes coinsurance amounts only. After the Out-of-pocket limit is met, the Pool pays 100% of your covered charges for the rest of the calendar year. For families of three or more, the annual out-of-pocket limit is twice the individual amount chosen.	\$2950	\$2450	\$2450

Transplant Services (Must be received at a participating transplant facility, Lifetime max. benefit per member of \$5,000,000. Additional maximums apply.	80% ^{1,2}

Out-of-pocket limit and deductible provisions do not apply. Oral contraceptives are covered. Special medical foods and certain drugs require prior approval or benefits will be denied. Prescription drugs for smoking/tobacco use cessation are limited to two 90-day courses of drug therapy when prior-approved by the Claims Administrator.*

Specialty Medications – Specialty medications are used to treat serious or chronic conditions such as multiple sclerosis, pulmonary hypertension, hepatitis, and rheumatoid arthritis. These medications are typically injectable and can be administered by a patient or family member. Specialty medications are required to be dispensed by a specialty pharmacy provider, are limited to a 30-day supply, and require prior authorization.

Step Therapy – For certain classes of drugs, step therapy requires that a generic drug within the same drug class be tried before a branded product may be used. Examples of this include generic cholesterol lowering drugs and generic antidepressants.

Drug Plan Program and Supply Limitations**

	Generic	Brand Name Drug	Brand Name Drug
	Drug	(NO generic equivalent)	(with generic equivalent)
Retail and Specialty Pharmacy Programs:	\$10	\$30% or \$10, whichever is greater, up to a maximum copayment of \$250	\$10 plus difference in cost between generic drug and brand-name purchased
During each one-month period, up to a 30-day supply or 180 units (e.g. pills), whichever is less.			
Mail-Order Plan:	\$30	30% or \$30, whichever is greater, up to a maximum copayment of \$750	\$30 plus difference in cost between generic drug and brand-name purchased
During each three-month period, up to a 90-day supply or 540 units (e.g. pills), whichever is less			

** NOTE: For commercially packaged items (such as an inhaler, a tube of ointment, or a blister pack of tablets), you will pay the applicable copayment or percentage amount for a 30-day supply – usually one packaged item – under the retail pharmacy and specialty pharmacy programs. You will pay three times that amount for up to a 90-day supply of the same item purchased through the mail-order program.

1-For some services, no benefits are available if prior approval is not obtained from the Administrator.

2-Admission review is required for inpatient admissions: benefits for facility services are reduced by 20 percent if admission review is not obtained before the member is admitted (or within 48 hours of admission in an emergency or for pregnancy-related admissions).

3-Not subject to deductible

*NOTE: Billed charges and covered charges are not the same. The “covered charge” is the amount that NMMIP determines is fair and reasonable for a particular covered service. It is often less than the billed charge. NMMIP will pay the provider 80% of covered charges after you have paid your share (e.g. deductible, coinsurance, copayment, penalty amount) or 100% of covered charges for preventive services. If you choose a participating provider, you will only have to pay up to the covered charge amount. If you choose a nonparticipating provider, you will have to pay the difference.
